

# Dual Band Indoor Repeater Installation Manual

## Kit accessories

### Step 1. Install the Outdoor Panel Antenna

- Install the Outdoor Panel Antenna on a pole by using the Fastening Bracket.

### Step 2. Connect Outdoor Antenna and the Unit

- Connect Outdoor Antenna and the Unit by using the RG 6/U Coaxial Cable.

### Step 3. Install the Main Unit

- Install the Indoor Antenna on the Main Unit and keep it vertically.
- Plug the Power Adaptor into the Main Unit.
- Keep the Repeater Main Unit away from the window.
- Put the Repeater Main Unit in the center of the home or room.

### WARNING:

1. The Panel Antenna must be installed lower than the lightning rod.
2. Lighting surge protector/Arrester is recommended to install on the Panel Antenna (Optional part#: ANT-SP)
3. The Panel Antenna must be facing away from the Main Unit to prevent loop oscillation.
